Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

This is an office action for serial number 10/619,209.

Claim Objections

The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Misnumbered first recitation of claim 22 has been renumbered 20.

Election/Restrictions

Applicant's election without traverse of Species I in the reply filed on October 6, 2004 is acknowledged.

Claims 2, 4, 9-12, and 22 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected Species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on October 6, 2004.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3, 8, 15, 20, 21, 24, and 25 are rejected under 35 U.S.C. 102(b) as being anticipated by Weber 1,760,458. Weber discloses a hanger body having a loop ends (near 5, and end of 3), a gate (9), a first mounting member (17 at the top), and second mounting member (17 at the bottom), a support connectors (15), a swivel loop closer (6) formed of a bent rod (being at the end to attach to 7) pivotably engaged with a receptacle (see figure 2), clamp members (16).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 3632

Claims 6, 7, and 23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Weber in view of Matossian et al. (Matossian) 5,303,574. Weber discloses all of the limitation of the claimed invention except for wear coating. Matossian teaches that it is known to have a wear coating having color indicators (60). It would have been obvious to one having ordinary skill in the art to have included the color wear indicator coating as taught by Matossian for the purpose of providing an extent of wear on the hanger apparatus to be quickly evaluated by visual observation.

Allowable Subject Matter

Claims 5, 8, 13, 14, 16-19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The prior art discloses conventional hanger members.
